2.11 Print a Test Card

With ribbon cartridge and cards loaded, your printer is ready to print. To check the operation of the printer, you should print a test card.

**Step 1.** Go to the Driver Tools tab (Select Start > Settings > Printers and Faxes. Right click on the Zebra ZXP Card Printer listing. Select Properties > Device Settings > Tools).

![Tools Menu](image)

**Step 2.** From the Print Test Card dropdown menu, select the desired test card (circled above).

- Standard
- Printer Parameters
- Encoder Parameters

**Step 3.** Click on the Print button; see sample test cards below.
